

**IN THE SPECIFICATION:**

On page 10, please replace the paragraph beginning at line 13 with the following amended paragraph:

Referring now to Figure 3A, the handle 18 is provided with a power supply PS for driving a laser emitter 3-16 which projects light against a reflecting mirror 3AM which directs light through an emitting area 3LE on the catheter or tube 17. ~~Mirror-3M~~ Mirror 3AM can be pivoted so that the laser light beam can scan an arc  $\Theta$  by rotation of the ~~mirror-M~~ mirror 3AM.
